

# SC9600 BRIDGE SUPPORT SYSTEM

For quick, easy setup with the strength and durability that is standard with all Staging Concepts' products, use the SC9600 Bridge Support System. This system "bridges" platforms from right to left and front to back. The SC9600 Bridge Support System consists of two end frames that lock together with both horizontal and diagonal snap bracing for ultimate support. Also included are four top plates in single, dual, or quad node design. The SC9600 is available in fixed or adjustable heights and is available in two versions: Arena Style and All-Terrain Style.

The Arena Style SC9600 adjusts with interior tubes that telescope upward from the top of the frame. This design allows the platform height to be adjusted quickly, with the frames in place.

Our second version, the All-Terrain Style SC9600, is great for outdoor use on uneven ground. The interior tubes, which telescope downward from the bottom of the frame, allow each of the legs to be set at different heights.

SC9600 Bridge Support System without Platform

## ADVANTAGES

### Efficiency

- “Bridges” platforms front to back and side to side, resulting in fewer supports for fast setup and strike.
- Horizontal and diagonal braces “snap” into place with snap hooks for quick and simple assembly.
- Locator nodes lock into place on each column and automatically align platforms; no need for readjustments.
- Setup easily by two people with no special tools.
- For use with all of Staging Concepts’ platforms.

### Variety

- All-Terrain style SC9600 Bridge Support System is ideal for outdoor applications.
- Arena Style SC9600 Bridge Support system suits indoor venues.
- Fixed heights available upon request.

### Durability

- Constructed of lightweight aluminum.
- Not subject to rust.

## TECHNICAL SPECIFICATIONS

The SC9600 Bridge Support System is used with the SC90®, SC97, Riser, Trex®, and Clima-Core™ Platforms. It is designed to comply with the following:

- Adjustable heights:
  - 24” - 36” (610 mm - 914 mm)
  - 36” - 54” (914 mm - 1372 mm)
  - 48” - 76” (1219 mm - 1930 mm)
- Adjust course height by 4” (102 mm) increments using a 5/8” (16 mm) locking pin. Allow 3” (76 mm) additional fine height adjustment through use of integral acme thread adjustable screw foot.
- Capable of being erected without use of tools.
- Main vertical members: 2-1/2” (64 mm), Schedule 40, 6005A-T61 aluminum pipe.
- Main horizontal members: 2” (51 mm) OD 6005A-T61 aluminum pipe.
- Telescoping columns: 2” (51 mm) IPS Schedule 80, 6005A-T61 aluminum tubing.
- Manually operated quick release structural fitting to each end.

## DIMENSIONS, WEIGHTS, AND FINISH OPTIONS
