

STAGE SKIRTING AND CLOSURE PANELS

Add Staging Concepts' stage skirting to your stage for a clean, polished look. Our stage skirting simply clips into our platform extrusions using extruded plastic clips with hook Velcro™ for completely invisible attachment. Skirting is available in both fixed and adjustable heights, and comes in a variety of colors to compliment your area.

Closure panels are a convenient and easy to use accessory that secures chairs from slipping between tiered levels, and creates a finished appearance. All accessories attach firmly to our platform extrusion with no loose parts.

Stage with Skirting

Patented Skirting Attachment

ADVANTAGES

STAGE SKIRTING

Efficiency

- Easily attaches to Staging Concepts' platforms with patented plastic skirting clip safety.
- Available in a variety of colors, heights, and lengths.
- Fixed and adjustable heights available.

CLOSURE PANELS

Quality

- Constructed of 1" (25 mm) thick plywood substrate with a HDPE or carpet surface.
- Acts as a chair stop and prevents tripping.
- Quickly and securely attaches to platform extrusion with no loose parts.
- Provides a clean, finished look.
- Available in the following finishes: HDPE, carpet, bare plywood, plywood with Veneer, plyron, aluminum

TECHNICAL SPECIFICATIONS

STAGE SKIRTING

Staging Concepts' Stage Skirting complies with the following:

- Material: Poly or velour fabric, fire retardant to NFPA 701 with reinforced webbing at top and loop Velcro™.

- Fullness: 50% fullness

- Pleating: Box pleat is standard; shirred pleat and no pleat also available.

- Attachment: Extruded plastic clip with hook Velcro™.

CLOSURE PANELS

- Provided where rise in height exceeds 6" (152 mm), or as directed by design requirements.

- Material: Plywood substrate construction. Provides polyethylene t-molding at top.

- Finish: Match the platform's surface.

- Attach the closure panel with spring-loaded clips or AVK clips.
