

# STORAGE AND TRANSPORT CARTS (FOR PLATFORMS)

No need for heavy lifting! Staging Concepts has a variety of platform carts for storage and transport that will fulfill the needs of your facility. The Arena Cart is a high-capacity cart that can carry up to 12 platforms with ratchet straps holding them in place. These carts are designed for use with a forklift with integral forklift guides and standard substantial bracing on the bottom cart surface. Additionally, the push bar is able to be detached for faster and easier platform loading. The Vertical Platform Cart transports up to 10 platforms on edge for easy navigation through doorways and other tight spaces. These carts have removable ends and can also be ordered for a 6 or 8 platform capacity. The Stackable Platform Cart can also hold up to 10 platforms per cart. When stacked, it can accommodate tight but tall storage spaces.

All carts are compatible with all of Staging Concepts' platforms including the SC90® Platform, SC97 Platform, Riser Platform, Trex® Platform, and weather-resistant Clima-Core™ Platform.

## ADVANTAGES

### Efficiency

- Carts serve as both storage and transportation units.
- All carts are equipped with two rigid and two swivel casters for ultimate maneuverability.
- Most models are able to be used with a forklift.

### Variety

- Multiple styles available to suit your various application needs.

### Durability

- Constructed with heavy gauge structural steel tubing with black powder coat finish.

### Capacity

- Arena Cart can hold up to 12 platforms.
- Vertical Platform Cart can hold up to 10 platforms.
- Stackable Platform Cart can hold up to 10 platforms.

## TECHNICAL SPECIFICATIONS

The Storage and Transport Carts are compatible with the SC90 Platform, SC97 Platform, Riser Platform, Trex Platform, and Clima-Core Platform.

- Construction: Heavy gauge structural steel tubing to ASTM A501, with black powder coat finish.
- Casters: Two 8" (203 mm) diameter rigid and two 8" (203 mm) diameter swivel casters.
